

Mohammed Mudassir

1401 B-wing Indian Ocean, Sagar City, Andheri (w), Mumbai - 400053

T: +91 720 870 1233 E: hello@mudasir.me

About Me

1. Challenges make me excited.
2. A technology geek, high motivation and enthusiasm is in my blood.
3. Contribute to open source project before going to bed.
4. Solution orientation, deep thinking and strive to grow is my passion.
5. Interesting books do not allow me to sleep.

Work Ethics

My working style is to focus on business logic, not to over or under engineer the product. I believe to ship quality code, find multiple solutions for a problem and collaborate with teammates as much as possible.

Currently working on

1. Implementing Domain Driven Design @ Insider.
2. Building Progressive Web App using NuxtJS, GraphQL, AWS Mobile & Postgres.
3. Founded and maintaining open source project which has exceeded 25k download.

Origin

Nationality	Indian
Date of Birth	19 th January 1992
Religion	Islam
Language Known	English, Hindi, and Urdu

Experience

1. **Insider.** (Sr. PHP Developer) [Full stack developer] Nov 2017 – Aug 2018

Insider is a growth management platform for clients such as Toyota, Singapore Airlines, Macdonald and many more. My responsibility is to deliver awesome code and I specifically focus to find ways which can improve the team by reducing bugs and improving efficiency.

1. Introduced Test Driven Development and successfully implemented in one of the product.
2. Implemented Single Page Application in one of our product.
3. Achieved to convince most of the team member about Domain Driven Design and took a session on how DDD will bring value to our product architecture.
4. Successfully transformed one of our Frontend from Gulp to Webpack.
5. Proposed RESTful API implementation.

Keyskills: PHP7.1, Laravel, ECMA6, VueJS, SCSS, Lambda, other AWS services, Python, Docker etc.□

2. **Nestopia** (Software Architect) Jan 2017 – July 2017

A kind of an ISO certification in Interior Designing Industry where my job is to design the flow of new features using the right technology to fit the desired need.

1. Responsible person to design “Match Making” tool to find the best designer available for a suitable home.
2. Implemented best practices standards and standardize code architecture.
3. Maintain portal, bug fixes and release upcoming changes.

Key skills: Laravel, VueJS, ECMA6, Webpack, jQuery, Docker and AWS etc.

Note: Project sustain for more than 4 years and made an impact in the market but due to insufficient funding. Nestopia became stagnant and closed for further development.

3. **Synergy Technology Services** (Sr. Software Engineer) Dec 2015 – Jan 2017

Contributed to The Orchard, Visa Surgeon, Society Management System, RoomsDot, Resume Analyzer, Ambrosia India, MSRTC (Indian government project)

and many more. Also, I trained to get people more familiar with Laravel and new features in PHP.

1. The Orchard: Sony is the parent company of The Orchard. The Orchard deliver music, videos and album across the globe. I contributed to making their backend smooth and easy to use.
2. Visa surgeon: An online portal to get assistance in getting visa of any country. My contribution was to build and maintain chat feature and role management system which is developed on socket.io and Laravel.
3. Society Management System: Consist of billing, flat maintenance, interest calculation on last month unpaid bill, reminders, notification, meetings, events, storing documents and much more features were build. This project is developed on Laravel, AngularJS, ECMA6 and many open source projects.

Key skills: Laravel, Zend framework, JQuery, AngularJS, Flask framework, Unit Test, Laravel, ECMA6, socket.io, NodeJS and many more.

4. **PostBox Communications** (Team Lead)

Jan 2014 - Dec 2015

My responsibility was to direct people in the right direction, to select the best technology which will fit the need of the project and encourage the team to learn the new technology which will help company and them to grow.

1. Drupal: invenio-ets.com, growthconceptmanagement.com.au which is purely base on Drupal and custom JS.
2. Laravel: Work Management system, Attractions, Wandermonkey.com etc are developed on Laravel.
3. CodeIgniter: Papulex facebook app was developed on CodeIgniter. The main purpose of this app is data gathering.
4. Others: Emdico powered by a custom framework, Singhania and few more portals and website were developed as per client requirement.

Key Skills: Drupal, Laravel 4, Laravel 5, Custom PHP framework, HTML5, CSS3, jQuery, Angular, Single Page Application, Symfony and many more.

5. **RedCom** (Drupal Developer) July 2014 – Dec 2015

Projects contributed to thealumniportal.com, thealumniportal.net, ves.ac.in, gep.com etc are built on Drupal 6 and Drupal 7.

Key skills: Building Drupal Modules, Drupal, PHP5, HTML5, CSS3 and Javascript

6. **OurDoctor** (Freelancer) March 2012 - 2015

Portal was designed to facilitate people who suffer from common diseases and what necessary medicine should be taken will be decided by the system. The permutation combination and algorithm design by me to get the proper result. The medicine get confirmed by the available doctor and then prescribe to the patient.

Key skills: Codeigniter, PHP5, Javascript, jQuery, HTML5 and CSS3.

7. **Wisuca** (Freelancer) Mid 2011

I was responsible for maintaining and designing their portal from scratch. Later due to extensive feature. It became business specific CMS.

Key skills: PHP5, Javascript, jQuery, HTML5 and CSS3.

Other Skills Domain-General: Self-Motivated, Leader, Time Management, Strategy Planning.
Domain-Specific: Code Organizing, Optimum Utilization of Resources.

Education S.T. Elias, Rizvi College, Lynda University, Laracasts, w3schools.com, Talent Edge.

Course	School	University	Year	Percent
Laracasts	laracasts.com	-	Present	No Exam
EggHead, Udemy	egghead.io, udemy	-	Present	No Exam
HTML, CSS	w3schools.com	W3 Certification	2011	98%
PHP, MySQL	lynda.com	Lynda University	2011	No Exam
Excel in IT	Talent Edge	Vendor Certificate	2013	A Grade
B.Com	Rizvi College	Mumbai University	2013	53.60%
HSC	Rizvi College	Maharashtra Board	2009	53.50%
SSC	S.T Elias High	Maharashtra Board	2007	59.33%

Skills & Tools

Framework, CMS, Architecture

1. Laravel
2. Symfony
3. Codeigniter
4. Drupal
5. Lumen
6. Wordpress
7. Design patterns
8. SOLID Principle
9. DRY Principle
10. Domain Driven Design

Software, CI, IDEs

1. Git, Bitbucket
2. JIRA
3. PHPStorm
4. Code
5. Sublime
6. Vagrant
7. Homestead
8. Docker
9. Travis
10. Codeship
11. StyleCI

Operating System, Testing Framework, Standards

1. Centos
2. Ubuntu
3. Macintosh
4. Windows
5. Selenium
6. Unit Testing
7. Codeception
8. Behat
9. Agile Development
10. PSR Standards

JavaScript, Libraries, Others

1. REST API
2. GraphQL
3. jQuery
4. VueJS
5. AngularJS
6. NuxtJS
7. NodeJS, ECMA6
8. Elixir, Mix
9. Nginx, Apache
10. Caddy Server
11. Digital Ocean
12. Open Source Libraries

On the go Jenkins, Continuous Integration Pipeline, GraphQL, Aerospike, Kubernetes, Domain Driven Design with best practices.

Open Source Contribution These are the few contributions which I made to open source community:

1. [Selenium package](#)
2. [Coding principle](#)
3. [Aadhaar validation package](#)
4. [SPA framework](#)
5. [API framework](#)

Other Achievement

1. Was one of the Best Martial Art student and created a record in getting highest medals and trophy.
2. Conducted seminar in which presented future of a person without extra activities and was the only one who got this chance in College.
3. A letter from Google.
